DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Claim(s) 1-2, 5-10, 12, 14 drawn to a method of making percarbonic acid;
 - II. Claim(s) 26-29, 31, 34-35, 39, 41-42, 45, 52-55, 58-60, 63-65, drawn to a method of using percarbonic acid on a substrate;
 - III. Claim(s) 66, 68-71, 73, 75-78, 81, 84-85, 87, 91, and 92 drawn to a method of using a translational force and percarbonic acid on a substrate;
 - IV. Claim(s) 89 drawn to an apparatus for using percarbonic acid on a substrate;
 - V. Claim(s) 90 drawn to a method of monitoring the use of percarbonic acid on a substrate;
2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is the percarbonic acid. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art. US Patent 4751015 teaches the formation of a percarbonic acid using hydrogen peroxide (Column 8, lines 43-46) substantially as claimed in Group I. The reference

specifically suggests the use of percarbonic acids in bleaching detergents for cleaning (Column 8, lines 47-62).

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DANIELLE HENKEL whose telephone number is (571)270-5505. The examiner can normally be reached on Mon-Thur: 7:30am-5pm, Alternate Fridays: 7:30am-4.
